HAIR PRODUCTS

Lori Peppin Hair

INNERSENSE ORGANIC

Products

Hairbaths

Scalp cleansers or shampoos. They do lather and clean your scalp well. Three levels of hydration.

Conditioners

Regular, daily conditioners. Restore moisture and create slip. Helps curls clump.

Gels

Provide an outside seal to seal in moisture, create curl definition and lock frizz in.

Hairspray

Non aerosol hairspray helps style hold and improves drying time.

Styling Products

Create more volume, more conditioning, heat protectant or other specific hairstyling needs.

All products are silicone and sulfate free.

All products are water soluble and should be emulsified in your hands before use.

Notes

Curl Steps

CLEANSE AND CONDITION

Thoroughly wet hair, rub a small amount between hands to emulsify. Spread over scalp, parting hair when needed. Scrub with finger pads until scalp is clean. Apply conditioner to soaking wet hair and squish to condish. Begin detangling.

APPLY PRODUCTS

Rinse conditioner out and immediately apply styling products. Hair **MUST** be soaking wet and smooth, coated with gel to set correctly. Clip hair as needed. Spray down with hairspray.

DRY HAIR

Diffuse hair on medium heat, high speed until completely dry. Pinch to check dryness. Dry again. Scrunch out the crunch. Hairspray.
